

BOOK OF THE FUTURE

Parent-child Workshop Villa-Comenus &Nachbarsdhaft 2023 Berlin The Book of the Future workshop is an activity that combines creativity and parent—child interaction. In this workshop, children work together with their parents to create a handmade book on the theme of the future. Through creative collaboration, which is realised through drawings, collages and crafting techniques, possible futures are explored. Creating the book not only stimulates the creativity, imagination and artistic expression of the children and their parents, but also promotes communication and mutual understanding. Workshops are held in the Charlottenburg community to help diverse families understand and communicate with each other.
